SKI & MOUNTAIN

It is known in Switzerland that the winter season is almost more attractive than the summer one. For this reason, we wanted to dedicate an issue of the magazine to the cold season with the most popular tourist destinations.

St. Moritz, Andermatt, Zermatt, combined with the cities of Zurich and Geneva; and a reportage with winter sun targets, for those who like it a bit warmer in the colder months and maybe even plan to play golf.

We have put together some news on the topic of golf and introduced our new partner: Hardwood putters, who created a Swissline especially for us, and tourist golf (event partners), where we take part in golf tournaments with our top-class award ceremonies. There is also a new section "Golf News & Dolce Vita".

The Digital Mountain Edition is available free of charge at www.golfpiaceregusto.com and on our newly launched APP in the Apple store under „Golf Pleasure Taste“ and „Immogolf“. We are pleased about numerous downloads, so that you are always up to date with what is going on and that we can of course reach a lot of people worldwide.

STORCHEN
ZÜRICH

THE LIVING CIRCLE

The concept „The Living Circle“ thrives on nature and luxury - in the most fascinating places in Switzerland. „The Living Circle“ is not a chain of hotels in the classical sense, but an exclusive selection of incomparable habitats with two hotels, two farms and two exquisite restaurants.

ARRIVE AND COME HOME

The stork is one of two very special houses that make up „The Living Circle“. Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come to

gether in the stork. Our restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

ious renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivated relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box seat for the multifaceted spectacle Zurich has to offer.

WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to var-

MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

HOW ZURICH MEANS

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be pampered by the exquisite seasonal creations of Chef Cyrille Anizan, against a spectacular mountain backdrop. The recently refurbished Barchetta Bar attracts locals as well as guests from near and far - with freshly roasted coffee and light lunches a day and expertly mixed cocktails in the evening. Finish - or start - the evening in the new Cigar Bar, where connoisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clear-

ly during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the stork's top-equipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m²). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend our boardroom (35 m²), the Limmat

room (36 m²) or the Werdmüller room (20 m²). The restaurant La Rôtisserie, the Barchetta Bar and the Cigar Bar can also be rented for events.

A CITY LIKE A HOME

The «stork experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmat is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthaus and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless

exclusive shops, many famous dining establishments and a nightlife scene that is well known across the country.

ZURICH AS OUR INSPIRATION: THE CITY ON THE DISH

In the Zunftthaus zur Waag it is possible to dine and celebrate in a stylish old town atmosphere. Be inspired by Sepp Wimmer's hospitality in this historic house dating back to 1315. In the elegant, Zurich-style bourgeois room on the first floor, head chef Alain Koenig pampers you with Zurich classics and creative new creations. Among its most prestigious dishes is the Zürcher Geschnetzeltes with Butterrösti. From April to September, the

shady terrace on the car free Münsterhof invites to light summer dishes and ice-cold Lake Zurich wines. Enjoy the splashing of the Münsterhofbrunnen and the ringing of the church bells, while watching the swifts above the roof of the Fraumünster.

WINE-GROWING IN ACCORDANCE WITH NATURE

The Cave du Chevalier Bayard offers a wide range of authentic, naturally produced quality wines.

ABOUT US

As a third-generation family business, we continue the family tradition of our grandfather Jeremias Bayard and bring in new know-how.

LOCATION

Varen is located on a terrace above the Pfynwald in the park Pfyn / Finges. This unique landscape is characterized by plenty of sun, low rainfall and barren, calcareous soil. The orientation and slope of the plots on the southern slope favored the formation of a deep root system, which allows the production of complex wines.

HISTORY

The „Cave du Chevalier Bayard“ was founded in 1975. The majority of the founding members are children of Jeremiah Bayard, who continued the tradition of their father's - encaveur. In the big family it is a matter of course to work for the company and to honor the family heritage. Cave Chevalier Bayard engages in golf and is wine sponsor of the Swiss Golf Pro Supporter Club tournaments.

Spend pleasurable hours in a cozy atmosphere in our Carnotzet and join us on an expedition of our wine palette in red and white. Welcome!

THE CAVE DU CHEVALIER BAYARD SAYS „ONE FOR ALL, ALL FOR ONE“

Rebmeister Bertrand Nominé and oenologist Alexis Praz are specialists, specialists with regard to oenology and the adequacy of the soil-grape climate. They are committed to the Chevalier Bayard winery, which is moved by a new dynamic, an energetic direction, very tense and classy wines.

The grapes sublimate in the cellar:

Alexis Praz, a 35-year-old Aosta thaler, completed his master's degree in oenology in Turin and has been vinifying at the Chevalier Bayard in Varen since the 2018 vintage.

During the tasting, the wines keep the promise of their author; a lot of breed, finesse, typical wines, with a beautiful personality, an expression of the grape and the terroir.

„I have a lot of freedom here and can produce

wines with great excitement, freshness and elegance,” says the happy Alexis Praz.

An examination of the soil, a selection of plots and partial refinements that Bertrand and Alexis had carried out together contribute to this new wine identity.

HAMMAM
Already over one hundred years ago, our ancestors washed off the everyday dust in the Volkshaus. Today, the Turkish Hammam nourishes the soul in the city bath at the same time. Herbal steam baths and healing chalk wraps not only cleanse the pores deep, they also warm the mind - as well as the relaxation on the navel and the oriental refreshments in the relaxation room afterwards. Our insider tip are the original soap foam massages.

STADTBAD ZÜRICH

Being there, enveloped by comforting warmth. There, where soft lights glow and exotic smells float. Where oriental hospitality of Swiss quality shakes hands. To be there, where the distance is in the home and the home in the distance.

SAUNA

Turks, Russians and Native Americans have known for hundreds of years about the beneficial effects of the sweating ritual. A special treat is the additional massage with birch branches before jumping into the ice cold pool - for detoxification and natural stimulation of the circulation.

SPA-TREATMENTS

Whether deep relaxation, beauty or health: the Hammam & Spa combines selected spa traditions. Classic and oriental massages relax and increase wellbeing. Ayurvedic treatments ensure detoxification and cleansing, thalasso therapies revitalize and tone up with the healing powers of the sea. And for a particularly radiant conclusion, offer our various beauty treatments.

The Dolder Golf Club Zurich was founded in 1907 and it is one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

Interview

- Since How long you are you a painter?
Tell us briefly your story.

I started painting at a very young age in fact I was 14 when I had my first Exhibition in Zambia.

I studied Phycology and it was only after I graduated from University in Los Angels and moved to London in 1980 that I really started to paint.

I Sold my first Painting in 1984 and I was very happy about it that's when I decided that I would become an Artist even though I did not have any Art formal Education which I found very exciting because I was always learning how to paint by each painting that I created as a result my paintings have always space to finish in three hours or in 30 years or for ever! A painting is never finished unless the painter says so and that's the joy of my work.

- How are your projects for the future?

I painted in London in the 80s, I was very active working with galleries and Exhibiting in International Shows some big some small they were challenging moments still are but very rewarding.

I left London in 1995 and moved to Luxembourg working and painting for 2 years.

In 1997 I left Luxembourg for Italy (Vernice) painting for 2 years. End of 1999 I moved to Zurich working with galleries in other countries Like, Japan , USA and other European Countries and I am now based in Zurich.

My interests are still in continuing to paint but my love for Wild life and the abundance of Animals and open spaces in my country Zambia has taken the best of me to another level where I have started to develop a wonderful property in a National Park of Zambia where I plan to paint from and to Open an Art Gallery in the WILD! Also to help with the global problem of plastic by educating people in these remote parts of Zambia about the dangers plastic can do to their Animals and fish! It's a very Interesting project.

NARDOU

c o u t u r e

- Haute couture is your passion. How did you start?

The Nardou Couture brand started in the fashion world exactly 5 years ago, presenting its first collection in the city of Zurich and since then we have made one collection per year. Two persons helped me a lot in the beginning; they believed in my creative potential and supported me so that I was able to start Nardou Couture.

- Which are your future projects?

Our next project is to continue making our work known in Europe and we are organizing a quite big Fashion Show celebrating these 5 years of our brand. There we are going to expose a selection of our most important garments of these

last 5 years; those were shown at events like Berlinale, San Sebastian Film Festival or Opernball Leipzig.

- Where do you want to expand your fashion business?

In these times where social networks play such an important roll in the promotion of a product, we try to make our work known as much as possible by promoting it on these platforms; that's the goal for our brand. Luis Bernardou.

Oxywater - (not only) a golf love at first sight

Do you love this excellent laziness when playing golf? Gradually increasing energy that does not distract you, but gives you a feeling of balance, lightness and calm? Then you will love Oxywater from the Czech-Slovak manufacture, which is put on the market by the company p & m solution gmbh, Marbach SG and represented by many athletes. Linda Pavlová, international representative of the niche lifestyle, is captivated by the uniqueness of oxygen water, because the two most important components of life - water and oxygen - stand for beauty and health.

There's a woman behind everything

A woman who conquered an aggressive type of cancer 12 years ago and fell in love with oxygen in all its forms, just during the annual oncological treatment. Her victory and conviction led to a change in her entrepreneurship and for 12 years she has been the largest and only oxygen center in Slovakia. This love ended three years ago in Oxywater, a so-called oral oxygen therapy (OOT) for on the go. OOT is the international name for oxygenated drinking water with a much higher oxygen content than in the usual water packaging. It is bottled for the company of Julianna Hložek Grmannová with a minimum content of 90 mg oxygen per liter of water. Normal water contains 8 mg of oxygen. Oxywater is still water and contributes to the immediate refreshment. Drinking oxygenated water proves to be a safe way of returning to the prenatal stage of humans.

Trip to Switzerland

With zero calories and a quick effect (thanks to oxygen) on healing and inflammatory processes, it is brought to the Swiss market by Maria Kurz and Patrick Fenk from p & m solution gmbh, Marbach SG. "I love the product after reading Julianna's story and using Oxywater every day. My desire to bring this product to a similarly small, compact country was so strong that I feel great joy today when the young athletes from our Oxy Athletics team receive their awards together with our oxygen water," says Maria Kurz.

The power of oxygen

Because of its healing properties, oxygen has always been used in aesthetic and rescue medicine, as well as in the care of burn victims. Every healthy cell needs it, every disease evades it. The hydrogen compounds in water enriched with oxygen enable the further binding of gases, especially the binding of oxygen. In 1960 it was discovered in Russia that the gastric mucosa takes up oxygen just like the alveoli. Mental skills are extremely important in any sport. If you are an athlete yourself, you know that the head can bring the decisive advantage more often. Our brain needs about 20% of the total oxygen content in our body. Oxygen stimulates the circulation of the blood, which improves the oxygen supply to the brain, the nutrient supply and the regulatory mechanisms in the body.

MAKUMAYU

ALPACA FASHION & LEATHER GOODS

MAKUMAYU is a fashion company founded in 2011 with headquarters in Switzerland, run by the fourth generation of the Palaco family from the Peruvian city of Arequipa.

The family is one of the pioneers in the trade in alpaca wool and began processing and exporting to Europe in the early 20th century. The brand is composed accordingly of two central elements of the family history.

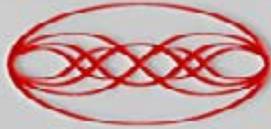

MAKU is derived from the name of the village Makusani, which lies at an altitude of more than 4'000 meters above sea level, located in the Peruvian Andes. In this vil-

lage, the Palaco family lived to buy quality alpaca wool. The alpaca breeders had to cross a river called MAYU on Quechua. In the 1960s, with the support of the family, a bridge was built in order to ensure a safe crossing for the alpaca breeders.

The company's close ties to the Peruvian highlands and alpaca breeders are also reflected in MAKUMAYU's social commitment and support for local projects.

How does MATRIX RHYTHM THERAPY works?

Our cells oscillate rhythmically, provided they are healthy. Is this process disturbed by in any way, so the oscillation slows down and the cells get no longer good nutrition and oxygen. Toxic waste products are not being eliminated fast enough. This process you find in the muscles, bones, cartilage, vascular and nervous tissues.

MATRIX RHYTHM THERAPY stops this deletering process via a specially shaped resonator. This resonator in the therapy appliance produces mechanical pulsations which will gently and harmoniously induce the cells to accept again their own body analog oscillations. This is particularly effective for the skeletal musculature and the nervous system. Because of this metabolic processes will be back to normal and pain gets reduced in short time.

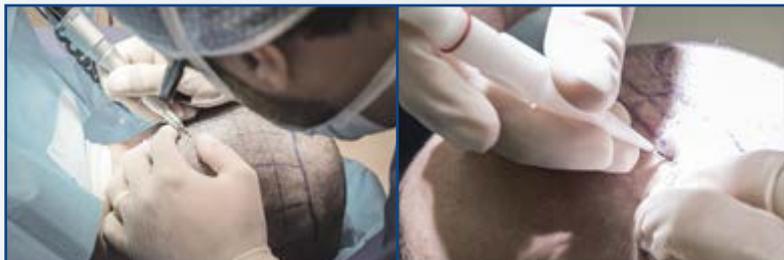

What can we treat:

- reduction of oedemas
- tension, spasticity, stress in the joint capsules
- reduced mobility after accidents, operations
- chronic pain, tinnitus, carpal tunnel syndrom, fybromyalgia
 - especially migraine or phantom pain
 - epicondylitis (golf or tennis arm)

Trichological surgery has made great strides in recent years: **the F.U.E. (Follicular Unit Extraction)** allows to obtain follicular units without leaving any visible sign to the naked eye.

This minimally invasive method consists in withdrawing from the occipital area (donor area) the individual bulbs that are re-implanted in turn in the affected area (receiving area) of the subject.

The results are totally natural with hair growing stronger than before in areas where they were absent; in fact, unlike the others, the hair taken from the back of the neck to be replanted is not affected by the action of androgens that determine its fall.

Precisely for this reason the results obtained with the autotransplant can be defined as **permanent**. The F.U.E. technique it is minimally invasive, allowing to resume **normal activities** just a **few days after the operation**.

To get the best possible result it is essential to rely on the experts in the field. **Istituto Helvetico Sanders**, currently one of the main reference networks in Europe, puts at your disposal **over 100 hair restoration specialists** (surgeons, health assistants and biologists), **state-of-the-art facilities and periodic checks**, directly at your city's premises.

WELCOME TO THE WINERY

NADINE SAXER

Born as a winegrower's daughter, I was already connected with vines and wine from an early age. Today I work and live with my family of five at the winery. I am pleased to welcome you personally at the winery.

In our 8-hectare family business in a prime location in the Winterthur wine country, we cultivate a natural cultivation. In doing so, we take the laws of nature into account

and treat the available resources with care. With much manual work and passion, excellent wines are produced. Our winery has been a family business since its foundation by Jürg Saxer in the 1990s. Today, it is run by his daughter Nadine with husband Stefan Gysel Saxer and a team of knowledgeable staff. In addition to the quality of the wines, catchy names such as «Nobler Weisser», «Nobler Blauer» or «Der Sonder» contribute to the success of our goods. It sits enthroned in the midst of the vineyards proudly over Neftenbach and understands it again and again to combine tradition and innovation.

A world-class museum in a historic private villa.

The collector

Oskar Reinhart (1885–1965) came from a wealthy trading dynasty in Winterthur and had close contacts with artists whom his father supported as patrons.

He himself began collecting art at an early age and retired from business at the age of 39 to focus on his passion. At the same time he acquired the villa „Am Römerholz“, where he lived, surrounded by the most impressive works of his collection, until his death in 1965.

He bequeathed the villa and the collection in the will of the Swiss Confederation, which opened the rooms to the public in 1970.

The collection

Oskar Reinhart left behind one of the most important private collections of the 20th century. Outstanding paintings of French Impressionism and its predecessors in his collection lead a stimulating dialogue with masterpieces of older art.

The bow spans from Lucas Cranach the Elder, to Cézanne, van Gogh and the early Picasso. Among the approximately 200 works of art are top works by Géricault, Manet and Toulouse-Lautrec, as well as whole groups of works by Delacroix, Courbet, Corot, Daumier and Renoir. With the older works and their presentation in coordinated historical rooms Reinhart took up the model of French and German private collections. Oskar Reinhart assigned Impressionism the most significant achievement in the arts. In him, he recognized the enhancement of color and light to independent imagery.

Out of this thought, he developed the taste for the „picturesque“, which he *Massstab für die Beurteilung von Kunst erhob*. In Folge dessen betrachtete er die Alten Meister nicht als Grössen ihrer Epoche, sondern als Vorläufer der Moderne.

Park and Café in a unique atmosphere

A historic park with old trees and important sculptures surrounds the property and can also be visited. The attractive café with terrace overlooking the garden invites you to linger and can be booked for special groups (eg, corporate events and family celebrations).

«THE MIRACLE IN THE SNOW - PIETER BRUEGEL THE ELDER»

Pieter Bruegel's small panel painting of the Adoration of the Kings in the Snow (1563) is the focus of the exhibition at the Oskar Reinhart Collection 'Am Römerholz' from 23 November 2019 to 1 March 2020. It is his only painting in a public art collection in Switzerland and a special jewel in our collection. The exhibition also includes a range of other compositions, especially works on paper by Bruegel the

Elder, which bring out aspects of his art that are fundamental to any interpretation of this complex painting – aspects such as his seminal approach to the landscape and the 'updating' of the Bible story for his own contemporaries. A particularly important side of Bruegel's work is the ongoing pictorial discourse as to the revelatory or deceptive nature of the viewer's perception of the subject matter. Other features of his

work – such as his recourse to motifs drawn from the repertoire of Hieronymus Bosch, the role of the seasons, and the presence of Flemish village life – are all explored in the exhibition, as is the impact of global cooling in Bruegel's time as the Little Ice Age took hold. The exhibition also investigates the status of the Winterthur Adoration in relation to his other winter scenes – an entirely new genre at the time – and its evolution in the next century of its life.

The exhibition has been preceded by detailed examinations of the painting, partly resulting in new, revealing images, in collaboration with the Kunsthistorisches Museum Wien and international experts. Visitors to the exhibition will be able to access the findings of the scientific examinations via a media station and are invited to compare the original with images taken using macrophotography, X-radiography, raking light, infrared photography and infrared

reflectography. These findings can also be accessed online by users worldwide via the website Inside Bruegel.

Throughout the duration of the exhibition there will be a series of special events and guided tours, including a lecture evening with renowned Bruegel experts and a museum concert on the theme of winter. There will also be workshops for children, young people and adults alike, encouraging individual creativity.

Andermatt

Four words describe the soul of the village:
luxurious, natural, magical and mystical.

To get an idea of what it means by „mystic“, you can start by watching the video series „Mystic Mountains“ on the official website www.anderstatt-swissalps.ch. Stories of enchanted mountains, of people who live there, love them, and have chosen the sustainability and harmony between innovation and tradition as pillars of urban development.

Andermatt, the pearl of the Orsera Valley at 1447 meters above sea level,

has won its bet with the future without losing its ancient soul of alpine village. It has developed into a year-round destination in recent months, with the opening of the new conference hotel Radisson Blu Reussen, with residences, its public indoor pool, its wellness and fitness area.

Then there are 8 apartment buildings and the Piazza Gottardo which is the new commercial heart of Andermatt, with its shops and restaurants.

Summer is upon us and there are great expectations.

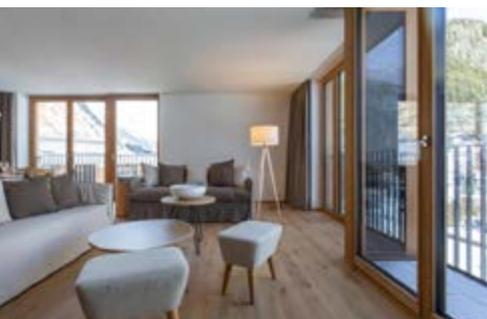

The 3-times award-winning 18-holes “best Golf Course of Switzerland”, with its spectacular mountain surroundings, allows you to play golf in a Scottish atmosphere and has quickly become one of the most sought after in all of Switzerland.

Andermatt has reached important milestones, but there is still a lot to do and more to come: the concert hall will be inaugurated on June 16th with a great concert of the Berliner Philharmonie. There are plans to start building the third hotel, a family structure soon. At least 30 other apartment houses are also designed to be built soon. Of course, the opening last December of the ski connection Andermatt and Sedrun was another milestone that allowed the promoters to experience one of the best seasons ever.

With the two Güttsch-Express (Andermatt-Güttsch) and Schneehüenerstock-Express (Oberalppass-Schneehüenerstock) cable cars, the operators open a new hiking and biking paradise with restaurants on both sides. In addition, another gondola from Sedrun to Cuolm is ready to widen the hiking field towards Disentis.

Andermatt is a little paradise in the Alps: investment opportunities are safe here, the quality of the construction is excellent and there are activities and options for all kinds of guests.

LES CONNAISSEURS THE CLUB

- What/Who is LesConnaisseurs ICC?

LesConnaisseurs, founded back in 2016, is a private cigar&event member club, dedicated to convene and connect people with an affinity for cigars and a passion for the good things in life.

- How did you have the idea of founding ICC?

For me people and interaction have always played an important role in my life. I am a strong believer that connecting, interacting and learning are key characteristics for development, extension of knowledge and therefore the base-line to become a better person. This said, I have noticed that these characteristics are often not respected or not paid enough attention in our fast changing world. When I have started to establish the idea and talked to my co-founders, my goal was to create an environment, where people can easily connect, get access to unique and personal insights and exchange their experiences. With every co-founder joining, the idea has been further developed and improved. This philosophy you can still observe till today. It has even become our DNA - with every new member joining, the idea is further developed and our story continued.

- Can you describe the concept behind ICC?

Our Club philosophy is to grant access, share unique insights and enable to experience effortless the fascinating worlds of craftsmanship, design and passion and to introduce members to the visionaries, entrepreneurs and aficionados behind. Therefore, our concept fully carry-on the original believes and intentions to connect, interact and learn - this in a

smooth and relaxed environment with fascinating brands and people.

We aim to become the platform which connects people and brands with a high affinity for the nice things in life. Our members typically are eager to not get the perfect polished marketing wash-up, but rather have a deep interest to receive an unique and personal insight behind the curtains, which normally you don't have or don't get. At the same time, this is also extremely appealing for brands too, as they get to know not only prospects, rather can interact directly with potential long-term clients with a strong connection to - and interest in the brand.

You can perfectly summarize our concept with the following: „...Worstcase you will have enjoyed a relaxed evening with a fine cigar, nice drinks and lively talks in good company - But maybe you will experience an unique insight and personal encounter which you didn't expect...“

-What are your visions as President of ICC for the future?

To continue our journey and further establish a strong network and environment, helping our members to get an unique and unexcep-

tional gateway to their interests and passions. Therefore, we also continue to invest into new technologies and improve our (digital) platform to enhance our members experience. This, as foundation to enable connection, accessibility and exchange in both, on- and offline.

Personally, I am very much looking forward to meet and exchange with many new interesting members to learn on how we could continue our story.

ONCE ZERMATT - ALWAYS ZERMATT

High-class gastronomy awaits guests in the village restaurants and hotels: 17 restaurants combine a total of 242 Gault Millau points in the gastronomic guide GaultMillau Switzerland, the country's most popular gourmet guide. More than 70 percent of Zermatt's hotels and restaurants are family-run, they are self-confidently living their tradition and offer their guests, including up to 80-percent regulars, high-quality service. Newly built hotels, but also houses with history, show the highest standard of construction. If you want to go shopping and enjoy shopping, you can stroll along Bahnhofstrasse in peace and take a close look at the brand stores. In the evenings, guests mix with locals in the many bars and dancing, where the night turns into day.

The snow sports destination Zermatt - Matterhorn is one of the places you must have seen once in your life. 360 km of slopes and a breathtaking mountain panorama await the snow sports enthusiasts. On the Matterhorn meet skiers, connoisseurs and alpinists.

The best mountaineers also climb the Matterhorn (4,478 meters above sea level) in winter. Even today, the story of the first-timers around Edward Whymper fascinates. In 1865 he managed to get to the top of the Mountain of Mountains.

Guests can easily reach the center of the Alpendorf by train. Zermatt has always been car-free. Here you go on foot, use the horse-drawn carriage or the electric taxis, which passengers and luggage drive through the narrow streets.

ZERMATT - TÄSCH - RANDA IN WINTER

The villages at the foot of the Matterhorn are characterized by the alpine landscape. 360 kilometers of slopes at altitudes between 1,620 and 3,883 meters in Switzerland and Italy lure you to snowsure and unbounded snow sports. 70 percent of the ski area is on glaciers or snowy. The snowpark makes the hearts of freestylers and snowboarders beat faster. In addition to the slopes, the teams of over 50 mountain restaurants spoil their guests on the promising sun terraces. The Zermatt mountain gastronomy is legendary.

The chalet has 5 double bedrooms, one of which has a mezzanine and an extra bed - ideal for a child. The attic is open in the gable and gives a generous open living-dining and kitchen space, the fireplace provides the warm ambience. The stunning rooftop jacuzzi is probably the most spectacular pool experience ever.

JULEN HEINZ INTERVIEW

August Julen, a mountain guide and owner of a restaurant high up in the mountains at Findeln, above Zermatt.

Heinz Julen as a rare kind of person. Brought up in a close-knit family, deeply rooted in the region, and in which religion holds an important place, he maintains a rare relationship with his surroundings marked by a spirituality which gives his works such an individual dimension and makes Heinz Julen an exceptional artist with an extraordinary career.

He is passionate about the design & creation of hand made furniture, architecture and art.

www.heinzjulen.com

- When in your life you had the feeling to have fulfilled your dreams?

Actually I always did what I wanted in my life, but I can say I reached my target when The Unplugged concert had taken place for the first time here in Zermatt. Today it is one of the most famous events in the region of Wallis.

www.zermatt-unplugged.ch

- Would you consider yourself more an Architect or a Designer?

I did many projects in my life, all my hotels and chalets I projected myself and I am fully satisfied. But my research never stops, I wake up always with something in my

head. New objects for home decoration or useful tools like for example "the chair".

- What is your next project?

I am fully into arts for the moment. I am subsidizing young artists who have the feeling they are talented and could have a nice artistic future life. Therefore I have projected a big gallery space here under Backstage Hotel, nearby the cinema.

ITALIAN WOOD PUTTERS

100% ARTISAN MADE
ONLY THE BEST WOODS
COMPLETELY CUSTOMIZABLE
HANDMADE IN ITALY

HARDWOOD PUTTERS was born in Italy from the idea of joining the world of golf with design carpentry. Specifically, the intention is to create a range of putters that are not only functional and in line with the specific R & A and USGA, but also small objects of art. The materials used are of the highest quality and the very special weight distribution, combined with a deliberately vintage design, guarantee the customer to have in his hands a unique and extremely effective product on the green. Wood, in Hardwood Putters, is therefore not only synonymous with nature, history and return to the past, but also and above all of effectiveness.

WHY CHOOSE HARDWOOD PUTTERS:

- **Innovative technology**
- The wood provides a **softer impact** on the ball and greater control of the trajectory.
- The **greater lightness** of the wood compared to the metal allows a greater freedom in the distribution of weight, and to act in such a significant way on the overall balancing of the head. All this allows to increase the hot spot from a few millimeters of a normal putter to over

2 cm wide, forgiving in part the error.

• **A tailored suit**

It is not the customer who has to adapt but, on the contrary, it will be the customer to choose all the features he wants his putters. A custom-made suit, therefore, from the type of shaft, to the weight, to the woods used, to the inlays, etc.

• **Each putter is a unique piece**

Great care for every detail and request give the opportunity to have in your hands a unique and exclusive product.

• **It is completely handmade in Italy**

Our philosophy is to give the customer the best, and do it without compromise. The product is therefore made entirely by hand in every phase, without the aid of numerical control machines. An artisanal product in the true sense of the term.

• **An unmatched look**

The solid wood used comes from all over the world and gives the putter a unique appearance and an inimitable color.

My family's great challenge and adventure has been to create this wine. Our rare grape-variety Piede Franco survived Phylloxera, keeping its aromatic scent, as well as its rich and unique taste. Pregliasco offers an intense and sophisticated character that only grows over time, an elegant taste that is a poetic reminder of ancestors who led this historic winery. We produce Pregliasco from exclusively selected harvest, with only 2,300 bottles and 50 magnum available after three years of aging.

The Cozzo Mario winery stands on the gentle hills of the Langhe near Dogliani, a land of great wines for time immemorial. The historic heart of the estate remains Cascina Lasagna, a farmhouse dating back to the XVIII century, but with the addition in recent years of the nearby Cascina Braida, the estate vineyards now stretch out over around 16 hectares where red, white and rose wines are produced from excellent grapes such as Dolcetto, Barbera, Nebbiolo and Arneis. Since the foundation of vineyard in 1827, the Cozzo Mario family have been producing wines with a traditional, yet innovative spirit and with a great respect for the sustainable environment. La

The art of improving flavors

A PLAN RESTAURANT WELCOMES YOU
FROM DECEMBER 6!

In the charming old village of Plan, just a few kilometers from Sestriere, in the heart of Via Lattea, the largest ski area in Europe, let yourself be pampered by the unique atmosphere of the La Reserve of La Spiaggetta dei Balzi Rossi. Fish and meat specialties for a taste experience that you will always carry in your heart.

La Reserve was born from the experience of gastronomy and hospitality of La Spiaggetta dei Balzi Rossi on the western Ligurian border with the French Riviera. A unique place of its kind, which has made it one of the most famous and exclusive beaches in Italy.

From December to April, Spiaggetta dei Balzi Rossi, with her crew and Mediterranean cuisine

based on fish and much more, is on schedule. The atmosphere of La Spiaggetta dei Balzi Rossi nature reserve is reminiscent of a fairy tale scenario in which historical and very valuable architectural details combine a culinary tradition rooted in Italian territory with the modern management of the Spiaggetta. The details make the difference and make the environment unique, original, refined and romantic, yet at the same time informal and relaxing.

La Reserve transforms your dinner into an unforgettable experience, with delicious recipes to satisfy the most discerning palate that the young and capable cook Maria Incarnato has to offer.

Our mission is to guarantee excellence by expressing identity: the true strength of a reality such as La Reserve, made of traditional quality and sophistication.

In 1956 the Circolo Golf Torino moved from „La Maddalena“ to „La Mandria“. The hilly site, albeit with nine holes located within a pleasant framework, has been for some time close to the members. Giovanni Nasi, former President, his wife Marinella and the Council have long since found the land on which to move. The architect John Morrison builds the new eighteen holes and the entrepreneur Attilio Biral erects the first club-house. The new Circle is beautiful, full of trees, vegetation and water. There are no houses and everything is based on golf. However, there are some objective difficulties of management, created by the limited number of members. It will be the Piemonte Sport, in 1977, thanks to Sergio Pininfarina to solve the problem and to permanently allow the Club to grow. The birth of Piemonte Sport allows you to find yourself with a considerable financial availability that in a first time will serve to fill the field and to better manage the workforce and then subsequently lead to the purchase of the land.

The course, designed by British architect John Morrison, is a typical example, rarely found this country, of "English style" layout, very "environment-friendly". Silver birches, chestnut trees and centuries old oaks frame the eighteen holes with colourful backdrops that change with each season. It offers 6 single and 13 double rooms, elegantly furnished with all comforts and free wi-fi in all the club house areas. En-

Our restaurant's menu lists an interesting variety of traditional regional Italian specialities and international dishes with a choice of the best local wines. A 20% discount is offered to our clients on 10 neighboring golf courses.

The Golf Club Castelconturbia was founded in 1898 in Piedmont and was one of only 2 existing golf courses in Italy. The famous American architect Robert Trent Jones senior designed and built the modern 27 - hole (3x9). In perfect harmony between old trees, streams, lakes and hilly terrain this is in his opinion his most successful work. The three paths lead to the terrace of the clubhouse, a fantastic place to relax and enjoy with a wonderful view of Monte Rosa. Newly opened in 1987, this golf club hosted the Italian Golf Open 1991 and 1998 twice.

Discover our winery, its wines and the rural surroundings of this beautiful haven in the heart of the island of Mallorca.

We take care of every detail.

Our aim is to produce wines which satisfy even the most demanding of palates. We know that good wines are produced in the vineyards, which is why we take the utmost care of our vines all year round; time and manual labour are key to this. From the pruning season in January, to the harvest in September, each and every one of the 148.000 vines is treated by hand at least seven times, and the harvest is also conducted by hand.

is the Premsal grape, a variety we use in our Biniagual white wine. We also grow Cabernet Sauvignon, Shiraz, Chardonnay and Muscat of Alexandria.

We believe in handling our grapes by hand and with the utmost care: in the course of a year, each one of our 148.000 vines are treated by hand at least seven times, including the harvest.

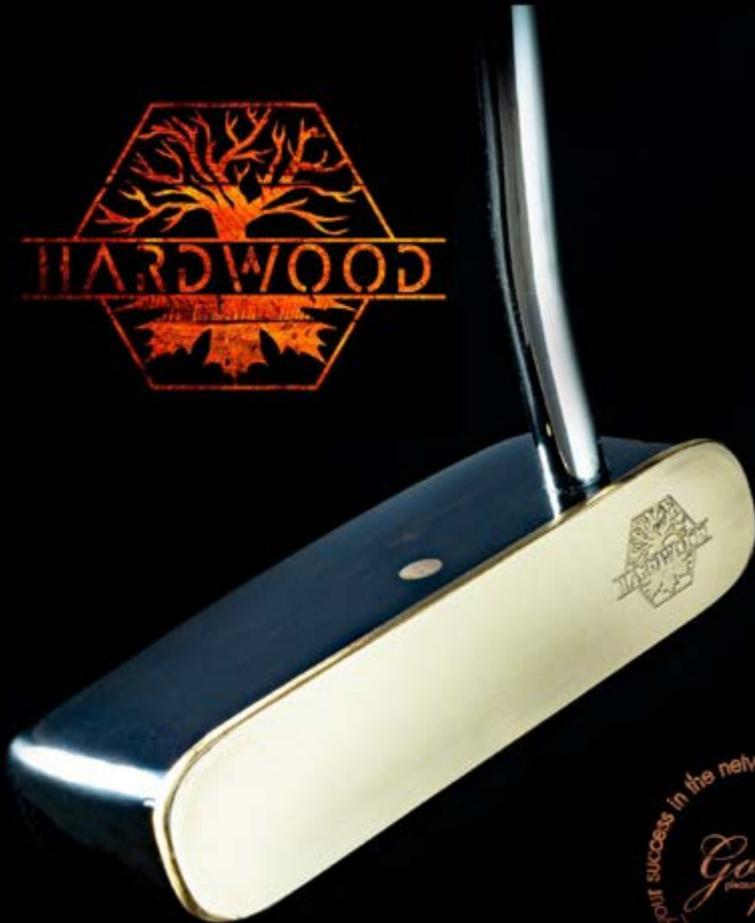

Biniagual Winery boasts 33.7 hectares of vineyard and 148.000 vines. The land used for our vineyard has been used historically for cultivating vines and its soil is ideal for it: this area was used for viticulture as far back as the 13th Century.

In keeping with tradition, we cultivate typical Mallorcan varieties of grape; the Mantonegro variety is autochthonous to the island and our red and rosé wines are based on it; another autochthonous variety
